

Welcome to the 4th Nordic EUS Meeting!

The Nordic EUS 2019 will be held in Helsinki at Meilahti Hospital 23-24 September 2019.

The meeting programme will include Nordic keynote speakers and consist of live demonstrations and hands on training. EUS use in traditional and also in uncommon entities will be presented. Novel EUS techniques such as biliary and pancreatic ductal interventions and use of fiducials will be presented. New pathological and genetic methods for diagnosing NET and pancreatic cystic lesions will be elucidated.

The aim of the conference is to offer GI endoscopists, pathologists and other specialists interested in EUS spectrum of basic and experienced EUS teaching. The meeting will collect together Nordic colleagues interested in EUS and help us to strengthen the clinical skills in the field of EUS. The meeting also provides time for discussion about possible multicentre scientific studies in the field of EUS.

There is a limited number of seats at the meeting – we can only take 50 participants altogether!

Register now: [Online registration](#) - Registration fee: 250€
